This actuator is Matter certified and can therefore be taught-in into different ecosystems and operated in parallel.
To control via Matter, a compatible Matter controller is required for each ecosystem. For Apple Home, for example, a Homepod mini, for Amazon Alexa, for example, a compatible Echo Dot and for Google Home, for example, a Nest mini.
As an option, the actuator can be configured via the ELTAKO Connect-App.
A development version of the REST API is available through the device's online product page. This is continuously being further developed.
The range of functions can be expanded using plug-on adapters. The EnOcean adapter (EOA64) enables access to the EnOcean ecosystem.
Further information on this can be found on the product page of the respective adapter.
